

Loyola Outreach

Loyola Outreach Programme (LOP) is a new venture and part of the Jesuit mission in the neighborhood of Loyola College. It is founded on the principle of serving the local population and makes the college visible in the locality. Through Loyola Outreach our college renders greater service to the rural poor students. Our vision is to promote education and spread human values among the school going children. The official inauguration along with orientation for the student volunteers was held on 19 Feb 2012. Right now the students are engaged in conducting evening coaching to the school going children.

We are able to reach out to 19 neighborhood villages and run 22 evening study centers consisting of 1,222 school going children under this mega venture. We execute this program successfully with the help of Fr. Principal and by the guidance of Fr. Arul Ravi SJ., Director of LOP, Bro Poondi Rajan, Ms Catherina, German Volunteer and the enthused program co-coordinator Mr.Sandheep who visit the centers frequently and facilitate effective functioning..

At present 66 student animators from various departments are engaged to run this programme effectively. Every week end a meeting is organized for the student animator representatives to sharing their experience. They come up with their feedback and valuable opinion for the improvement of LOP.

We plan to organize special programmes in all study centers to create awareness among children and people through displaying documentary films and conducting sports and cultural meet. A profile of children is being prepared to follow the progress students make and give motivation. In a nutshell the LOP is getting its rhythm through the involvement of Mr. Sandheep, Coordinator and our dedicated students. Our sincere thanks are due to our dear students who have dedicated themselves for this valuable programme.
