General Observations

Our department divided this batch of students into sixteen groups, allotting every mentors 12 to 14 students. The meeting with mentees was conducted twice in a year. The meetings were carried out with the objective to bring in a holistic development in students. Accordingly, issues related to academics, culturals, sports and games, other extracurricular activities, psychological strengths were discussed and analyzed. Based on the need, the mentees were advised for higher studies, motivated to improve their talents, guided for counselling, recommended for scholarships and free noon meals.

To summarize in this batch 20 students were recommended for scholarships. The slow learners were identified and were asked to attend the remedial class programme. Out of 165 students enrolled, 165 students completed their degree programmes. The mentoring programme creates a lasting relationship between mentors and mentees.
